“ Whenever my feet are cold, and that is often, I always wear my ballerina style slippers from My College Footwear. These are much lighter, stylish, and comfortable than the average chunky slipper.

Because these slippers have the Georgia G, I can wear them while lounging around or when I have friends over to watch away games.

They even have no-slip rubber soles so they can be worn outside while going to my friend's house or on the back deck reading a great book. You

can get your affordable pair at www.mycollegefootwear.com. ”

THE **Lucky** GUIDE
TO MASTERING ANY STYLE

How to wear iconic looks and make them your own

KIM FRANCE and ANDREA LINETT
authors of the best-selling LUCKY SHOPPING MANUAL

“ I have a chronic problem of buying random pieces that I think will be easily incorporated into my wardrobe, only to discover that my closet is a cornucopia of styles, a hodgepodge of haphazardly selected items, none of which really amount to anything. Oh, but I wanted that signature style. I wanted people to be able to identify my style as something unique... or maybe just as something, anything. But no matter how many magazines I read or other people's outfits I tried to recreate, I always seemed to fall short of developing any real "look". And then I found the "Lucky Guide to Mastering Any Style: Creating Iconic Looks and Making Them Your Own", written by Kim France and Andrea Linett.

This book is amazing! It outlines ten iconic styles, giving you examples of key pieces you need to create the style, outfit inspirations, and advice from women who embody the fashion, all of which can be modified to your personality. If you've ever wanted to look as boho-chic as Sienna Miller, as classic as Jennifer Aniston, or perhaps a combination of the two, and have been unsure of exactly how to get the look, this book is for you! Get yours today at your local bookstore, \$30. ”
